PROSPECT PARK MATERNITY HOSPITAL

ORGANIZED 1900. INVESTED CAPITAL $30,000.

Dr. W. W. Turver, Owner and Superintendent. All business transacted at our Down-Town Office, 101 Niagara St., between McKinley Monument and Morgan St. Dr. Turver gives his personal attention to every case. No students.

After five years' experience in maternity work in my private hospital, I beg leave to draw attention to the evidence of progress and prosperity of Prospect Park Maternity Hospital. I have endeavored to merit a continuation of public support, by establishing a maternity institution which is superior to any other in the country, embracing two beautiful properties, modern in construction, situated in Buffalo's finest residential section, and worth, with their beautiful furniture, over $30,000. Married ladies will find our charges moderate and our attendance superior to any that can be given in a private house. This hospital has been established for those wishing perfect seclusion and adoption of their children, is beautifully finished in polished woods, the windows being decorated with many beautiful designs in stained glass. It has a perfect heating system of hot water and hot air combined, thereby insuring an abundance of warmth and fresh air all the time. The rooms are fumigated and all utensils and instruments, etc., are carefully disinfected after every attendance, with formaldehyde. Please send for the report of "The New York Journal of Health," which was in no way inspired by myself and is the gratuitous offering of a friendly journal. The young ladies in my institution are from the most respectable classes. Sanitary conditions perfect, as none but maternity cases are accepted.
